Change doesn’t happen alone. United Way makes a difference in White County. We do it by facilitating successful partnerships that enable a safe, healthy, and caring community. More than just a fundraiser, United Way collaborates with businesses, non-profits, and civic organizations to help meet the human service needs in our community.

Health
No one should ever go hungry in White County. Over 100,000 meals were provided last year through our Funded Partners. Transportation to medical visits, shelter from domestic violence situations, therapy for abused children, advocacy for children in foster care, and access to physical fitness opportunities are also provided.

Education
United Way dollars are invested in youth programming to ensure that our children have opportunities to learn and be healthy throughout their developmental years to prepare for success. Special education, leadership, and life skills are taught through our Funded Partners along with scholarship opportunities for single parents wanting to improve the quality of life for themselves and for their families.

Financial Stability
United Way of White County gives people the resources and opportunities they need to improve their lives. Providing housing for families and individuals, basic needs for disaster victims, and helping the developmentally disabled with job and life skills training are part of how United Way and our Funded Partners are connecting individuals with what they need.

Mission Statement: To increase the organized capacity of people in White County to care for one another.
